

## PREREQUISITES

### Create an account in OpenweatherMap Website

Date	09 November 2022
Team ID	PNT2022TMID11025
Project Name	Project - Signs with smart connectivity for Better road safety
Maximum Marks	4 Marks

### Signs with smart connectivity for Better road safety

The screenshot displays the OpenWeatherMap website interface. The top navigation bar includes links for Guide, API, Dashboard, Marketplace, Pricing, Maps, Our Initiatives, Partners, Blog, For Business, and Support. The main content area features two prominent sections:

- Historical weather for any location:** This section highlights the 'Time Machine' technology, which enhances historical weather data. It lists key features: historical data for any coordinate and data extending up to 40 years. A note mentions that data can be downloaded from a personal account or by contacting the service. Two buttons, 'Learn more' and 'Go to purchase', are provided.
- Weather Dashboard:** This section describes the 'OpenWeather Dashboard' as a lightweight and flexible visual tool. It lists features: tracking main weather parameters (temperature, wind speed, precipitation), hourly data updates, and global coverage with location selection on a globe. A 'Show all' button is visible.

The bottom of the image shows a Windows taskbar with several open PDF files and a system tray displaying the date and time as 18:37 on 09-11-2022.
